# Mart

I consider myself a working girl, able to get everything I want. I think I'm sincere and direct. And very cheerful, I like to do things with joy. I also think I have a lot of patience and empathy.

**describe yourself shortly**

I'm Estonian who would like to see every corner of the world, also love everything what is related to cameras, sport and music.

Dare to do something new that will possibly change me and bring me memories and a unique experience.

**what was the trigger that brought you to Zabok?**

Main trigger to apply was your project and desire to live in another European country for a longer time. Have been in Croatia for a week and I absolutely loved it so it seemed perfect place with perfect project because it's related to digital media, cameras and where I can do things - use and polish my earlier skills plus learn new skills in this cool environment.

It's a hard feeling to explain. It's completely different from Madrid, neither better nor worse, and that's what makes it special. Fortunately it's a good first impression.

**what was your first impression when you came to Zabok?**

I knew before that Zabok will be small town so no surprise from that. But I thought it's even smaller and nothing to do but there are few things so I'm glad. Also our office squad is really friendly - have positive vibes from the first day till now.

For me it's not being difficult. I think communication is important in order to live together and be able to resolve potential disputes.

**how is it to live with a roommate?**

I have lived with a roommate or with more roommates many times while living in Estonia, Australia and Netherlands so I'm used to it. Main thing is that everyone clean after themselves what we do and not to use the bathroom for not a long time because other would like to use it too and we're handling this also very nicely.

Fortunately my work in the office is not very routine, it usually changes according to the needs of the office and my initiative to want to create something. But some example of my work would be to make videos, images, post, drawings or prepare activities and notes for my future Spanish classes. After work, I go home to eat and rest then I read a little o study. And some days I'm going to zumba, or walk.

**describe your work day**

Taking photos, videos when we have workshops, events in the office or outside of it - therefore editing everything. Also what is related to graphics, in addition I'm doing my small project and we're learning local language as well as helping each other to prepare for something what is coming up, clean the office etc.

Meet new people I know I will never lose contact with them because they are very good and nice people. Something bad is that Zabok is a small city in which not many people live, so when it comes to wanting to go out to stay and socialize with younger people it is difficult.

**so far, what is the best thing that has happened to you in Croatia. Is there something that was not so good?**

I can say that the best thing what has happened to me so far is the new people who I have met inside and outside the office, also loving the moments in the rocky nature.

I've only been here a little over a month and I feel like I'm changing in many sectors of my life and that I'm able to do things I didn't even think about before.

**do you want to add something?**

Kika is awesome!
